Branches and SIGs: Paying for Tables at SMW23

Each SIG and Branch leader will be receiving an email, based on the information on the webpage contact list. On that email will be an invoice and the payment method. This needs paying before we arrive at Telford. Each SIG & Branch that has paid in advance will have their wrist bands waiting for them in an envelope on arrival at Telford. Only one person needs to go the usual reception area to collect their respective envelope.

It was mentioned at the SIG & Branch Leaders meeting last year that we would send them out in advance but this does not work with administering the table payments.

This means we do not need to be specific with the set-up crew names, but we do rely on the honesty of the groups with regards to Society members only being on those teams. That is basically an insurance requirement.

If the payment is not made before arrival, there will be no envelope with wrist bands waiting for them. There will be no entry without the set up wrist bands.

If a group has not booked any extra tables, their wrist bands will be waiting for them.

If you know that a group does not have a contact email on the web page, or does not use the FB page, please let them know directly, or let the UKLO know.
